

Say **NO** to **Warehouses** on the **Wold**

Join the **March on May 11th**

The misnamed Kettering Energy Park masterplan is proposing a huge warehousing development as part of the design against the approved use.

The march will meet at Millennium Gardens from 12 noon for some speeches and some planning objection tips. Press will be present.

At 1pm we will march together to the site so you can experience the wonder of the Wold now and envisage the loss if this goes ahead.
